Anything Else?

I live in the 3 bedroom semi-detached home being offered as accommodation and would be glad to share my space. I occasionally have other people staying in my home in one of the spare rooms to reduce commute times for their work, but it is usually just me. I work from home occasionally (work for the MNRF) and occasionally I am away for work. I am a quiet, considerate person and would like my guest to also be considerate when they stay here and I want any guests to feel welcome and at home.
