<b>Anything Else?</b>	We have a beautiful basement which is close to a separate unit but for no oven or stove. Two bedrooms, washroom, tv, stereo, sofas, full washroom. Mostly above grade so bright. We need some access to the space. Guest access is through a patio door in the back. Stairway into house as well. Not sure that can can be locked for fire safety. We are open to woman with or without kids. May hesitate to have a man in the house in the absence of it being a separate unit.
